Blink IQ 200

Cable Management Solutions

Keep the space around your Blink chargers safe and clean with the Blink family of cable management solutions compatible with pedestal, wall mount or even pole mounted EV chargers.

NEW OR RETROFIT COMPATIBILITY

Cable Management Configurations

- Durable construction
- Can accompany Blink rectangle pedestals, triangle pedestals, pole mount, and wall mounted chargers
- Keeps cord off the ground reducing wear-and-tear
- Maintains a clean and safe area
- Triangle or rectangle pedestal compatibility
- Smooth cord retraction
- Ceiling mount option available
- Pedestal height: 94.9"

Blink IQ 200 Benefits

The flexibility of the IQ 200 is evident in its energy management capability, variable charging currents between 12A and 80A, and numerous mounting options from walls to wrapped pedestals*.

- ADA compliant height and sleek pedestal design
- Location promotion via Google Maps, the Blink mobile app and the Blink Map
- Fully customizable pedestal wraps
- On-Screen advertising opportunities
- Over-the-air firmware management and updates
- Easy payment via RFID, Apple Pay, Google Wallet, and all major credit cards
- 7" Daylight color LCD touch screens with auto-dim when not in use
- Charging status display with transaction details

*Some items may not be included in the initial product offering.
