

EXECUTIVE PROFILE**Brendan Jones**

Our goal is to build range confidence via the installation of EV chargers in the United States and across the globe.

President & Chief Executive Officer

Brendan Jones, a veteran of the automotive industry with over 20 years of experience, serves as President & Chief Executive Officer for Blink Charging, leading the global EV charging company into the next stage of its evolution. Brendan joined Blink in April 2020 as the COO and has been serving as President since 2021 where he has successfully positioned the organization for future expansion. Under Brendan's leadership, Blink has restructured its sales and operations, and enhanced its efficiency while building teams around the world to meet the growing demand for a robust, reliable EV charging infrastructure.

Prior to joining Blink Charging, Brendan was the COO for Electrify America, where he built the company from a start-up into one of the largest ultrafast EV charging companies in the world. Prior to that, he served as Vice President, OEM Strategy and Business Development of EVgo, repositioning the company's model to secure multi-million-dollar contracts with automotive OEMs. Brendan also had a long career at Nissan North America, including leading the team that launched the top-selling all-electric vehicle, the Nissan LEAF. Brendan was on the Board of Directors for Electric Drive Transportation Association (EDTA), ROEV Association, NRG EVgo EVSE Services, and GoElectricDrive Foundation. Brendan holds a Bachelor's degree in Communications and a Master's degree in Trade and Commerce from George Mason University. He also holds a certificate from Vanderbilt University's Accelerated Executive Leadership Development Program.

Blink Charging

Founded in 2009, Blink is dedicated to slowing climate change by reducing greenhouse gas emissions caused by transportation. We're a driving force in the EV industry, paving the way for the growth and adoption of electric vehicles.
